YOUR QUESTIONS, ANSWERED.

What is your MOQ?

30 pieces per design. Sizes can be mixed inside that quantity. Custom-dyed fabrics may need more — we tell you before quoting.

How much does it cost?

Price depends on product, fabric, decoration and quantity. Send your details for a free quote within 24 hours — direct factory pricing, no middleman.

Do you work with startups?

Yes. Low MOQ, mixed sizes, and help with tech packs, labels and packaging make us a fit for new brands.

Is my design kept confidential?

Your artwork, patterns and labels are kept on file for your reorders only.

Do EU / UK buyers pay duty?

Most garments qualify for zero duty under GSP+ (EU) and DCTS (UK) when origin rules are met. VAT still applies.

Are you a factory or a trader?

A manufacturer with our own factory in Daska, Sialkot. Every process is in-house — see it on a live video call.

Can I get a sample first?

Yes — always. Bulk starts only after you approve the pre-production sample (7–14 days).

Can you match Pantone colours?

Yes. Colours are matched to your Pantone codes and confirmed on the sample.

Do you ship DDP?

Yes — DDP or DAP door-to-door to the USA, UK, Europe, Canada, Australia and the Middle East.

What if something is wrong?

We share a QC report with photos before dispatch, so issues are caught at the factory — not at your door.
